PROFILE

Responsible and motivated student ready to apply education in the workplace. Offers excellent technical abilities with software and applications, ability to handle challenging work, and excellent time management skills

PROJECTS AND TRAINING

Airfare Reservation (Project)

In my Diploma last semester, I worked as part of a team to develop an Airline Reservation System, designed to streamline flight booking, cancellations, and seat managementement. Our system provided a user-friendly interface that allowed customers to search for flights, check real-time seat availability, and complete bookings securely.

- I contributed to both frontend and backend development, ensuring seamless integration between the user interface, database, and payment gateway. The project was developed using technologies like Java, Python, SQL, React, etc.. and we followed Agile methodologies to enhance collaboration and iterative improvements.

FULLSTACK (Trainee)

Technical Hub, Aditya College of Engineering & Technology

Completed intensive hands-on training in Full Stack Web Development
- covering both front-end and back-end technologies.

Gained practical experience in building responsive web applications using modern frameworks and tools.
Worked on real-time mini projects following industry-level coding standards.

EDUCATION

Bachelor of Technology (BTech) 2025 - 2028

Aditya College of Engineering and Technology
Branch : CSE
CGPA: 9.4/10

Diploma 2022 - 2025

Aditya college of Engineering and Technology
Branch : CSE
percentage : 98.06%
